A BURNED.

About one o'clock New Year's morning, Samuel Moore's barn, on the corner of Murray and Main streets, was consumed by fire. The owner is a carter and lost his horse, wagon and buggy. The barn and contents, all but the buggy, were insured for \$400 in the Glasgow and London Fire Ins. Co. Another barn owned by Mr. Moore, on the lot occupied by Mr. Royle, was scorched and narrowly escaped destruction. Another case of supposed incendiarism. The insurance will about cover the loss.

Municipal Elections.

DR. WILLSON, MAYOR, BY 52 MAJORITY.

A HEAVY VOTE POLLED IN ALL THE WARD.

Not much Change in the Composition of the Council.

THE CANDIDATES STAY AFTER THE BATTLE IS OVER.

The election yesterday passed off quietly, yet a great deal of interest was manifested in all the wards. The Mayor, Dr. Willson, polled a heavy vote, and the Council was re-elected.

Men being sharp, coupled with the interest caused by the struggle for the Mayorship, brought the voters out early. As soon as the polls were held, the Mayor, Dr. Willson, was elected by a heavy majority.

In former years, although the polls were held early and the Mayorship was a close contest, the Mayor, Dr. Willson, was elected by a heavy majority.

Ald. Diamond and Dr. Willson, who fought out the majority contest, were both in the field and left no stone unturned. The friends of both candidates were working hard to secure the victory.

Shortly after noon, when all the polling places in the city were visited by a representative of the Mayor, Dr. Willson, he found that the question that everywhere prevailed did not indicate indecision. Everybody was sure to be elected.

was the place where the attack should have been made. A voice—"It was"—but he would not utter the name. He was charged by Dr. Willson with being an obstructionist. His record in municipal life was on the council minutes book. He could deny the statement; he had never opposed free discussion and voted only on questions of right and wrong. His position to the water works had been quite different. He was not opposed to having water works, but thought the city was paying too much for the scheme and he would not let the city pay for it. I did not take out the full amount myself, if

I live till I'm fifty years of age, and in case I die

before that time, my wife will get it.

Are you well out with it?

I am, perfectly. The policy has no con-

and it deducts from the amount of cash, or

paid to Assurance, 1 per cent. of the sum

assured. These are very important conditions.

offered me by any other agent on the same plan.

Yes, but you will prefer that the money

you invested in this policy should be

invested in a good business, and I should

thought it a small consideration that I should

be able to get my money back when I have

invested in the policy for a longer time.

BELLEVILLE, ONTARIO, WEDNESDAY JANUARY 25, 1888.

Daily Intelligencer.

ITEMS OF ALL SORTS.

Belleville, Ont., Jan. 25, 1888.  
A private post has been given to-day at New York for the benefit of charity. The government of Spain has decided to celebrate the fourth anniversary of the discovery of America.

Yours, the morning star, is brighter than it ever appeared to anyone on earth, and more the earth than it will be again for 90 years.

The Cincinnati Manifesto Protective Union has decided that a member shall play in an orchestra with women of the penitentiary and a member shall be applied for reinstatement.

A street of railroad track extending from Madisonville to the southern terminus of the Cincinnati and St. Louis line has been named for the name of "Dead Man's Curve."

An Indianapolis newspaper says that the first victim to suffer death for desertion in the war was Robert Gray, an Indian school teacher, who had enlisted from the southern part of the state, and was shot at Camp Butler, Indiana, on Jan. 10.

It is a rare man moving on the ice, but such a sight was possible the other day at the Victoria, B. C. After a heavy snowstorm, enough rain remained about the ice to make a thin layer of water, and it was in this water that the first victim was seen.

It is announced from St. Louis that the Mexican government has granted extraordinary immigration to a real estate company in Mexico. The government has granted extra immigration to a real estate company in Mexico.

A Boston paper asserts that a newly rich New York woman got from a dishonest son a portion of an old-fashioned medal to the memory of some of the same name as he had that was in an English graveyard, and was his father's last wish.

There are many burglaries committed in Boston, but few burglars will follow the advice of the police of London, who say that it is best to be a thief and not a burglar.

The Pennsylvania Railroad company has established a savings fund for the benefit of its employees. Money may be deposited with any freight or ticket agent designated by the company.

There are a number of women in Utah, where honesty, industry, and energy are the chief characteristics of the people, who are engaged in the manufacture of soap.

A change in the style of dogs is imminent. The question has become the matter of a collar, which is as new as a white collar, and consequently the craze for collars of that material has broken out here.

The correct thing in dogs is to have a collar. The question has become the matter of a collar, which is as new as a white collar, and consequently the craze for collars of that material has broken out here.

A meeting of hunters was held in England recently to protect against the use of wire fences. It was decided that great danger had arisen in the rapid spread of wire fences, which endangered the lives of all sportsmen and led to acts of cruelty to the game.

In Brief and to the Point

Dyspepsia is a dreadful disorder of the stomach. Indigestion is a fun to good men.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is only just out of order in a healthy man, and it is only just out of order in a healthy man.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy cents.

CONSUMPTION CURED. An old physician, retired from practice, having had placed in his hands by the late Dr. J. C. Smith, a volume of the formulae of a simple and sure cure of Consumption, Cough, Catarrh, Asthma and all Throat and Lung Affections, by the late Dr. J. C. Smith.

Nothing so suddenly strikes the population as a sudden transition from heat to cold. Heat strikes the blood, quickens the circulation, and increases the perspiration, but when the weather suddenly changes, the consequence must be that the body is not prepared for the change.

Sir Yano had invited several very eligible, unmarried men, and Miss Lalla's beauty was especially attractive. Her husband, however, produced considerable misimpression. Her husband was simply perfect; a belle of fortune, seasons could not have been as entirely as his. He was a man of great wealth, and better than most, young ladies. It was the universal verdict—beautiful young debut—accomplished and rich. So, after dinner, and her rich voice was heard, she was the first to be asked to dance. "She is like to Patti!" was the verdict of more than one present. "It is a

OUR LIFE

It is not for man to live, it is to die.

# Daily Intelligence.

BEILLEVILLE, FRIDAY, JAN. 27.

HAS HIM ON THE HIP.

Mr. W. H. O. Kerr, who has been dis-

criminate the Mail's statement of the condition

of the Ontario farmer, has got that re-

pute journal on the hip. He is an expert

that it contains that he has misrepresent-

ed its statements. Mr. Kerr makes a vigor-

ous reply, in which he shows that the as-

sertion of his misrepresentation is as un-

true as were the statements which he con-

futed. Mr. Kerr says in his last letter to

the Empire:

Now, with regard to my alleged mis-

representation of the Mail's position, I beg

to say that I took good care to quote the

very words of that journal, and I should

be charged with misrepresenting it. And

what I undertook to write about was ac-

cused on a simple statement of fact, which

could neither be weakened or

strengthened by its context. The Mail's

statement, which I undertook to refute,

was as follows:

What has been the result of the year in

the last ten or twelve years, and other ag-

ricultural products have been sold at

greater or less degree. The average farmer is

therefore, less able to pay his taxes, and

manufacturers' prices have prevailed in 1878,

1877 or 1878.

I now proved conclusively out of the

business columns of the Mail:

1. That it is not true that "what has

fallen of value per bushel within the last

ten or twelve years." On the contrary, I

showed that within the last ten or twelve

years wheat was lower than it is today.

2. I proved conclusively from the busi-

ness columns of the Mail that it was not

true that "other agricultural products have

declined in value to a greater or less de-

gree." On the contrary, I showed that

many of these were largely advanced in

price, and I might have added immensely

increase in volume and quantity.

3. I showed that "the average farmer

was not only as well able to pay the man-

ufacturers' prices that he was in 1878,

1877 and 1878," but much better able, and

if he had not the wheat, he could

buy it at about one half the rate of

the rate that prevailed in those years.

More than this, I demonstrated that

nearly everything the farmer has to buy is

very cheaper now than in 1878, and

pointed out that a single barrel of im-

plements which in 1878 cost \$300 could

now be obtained for half the money. I

pointed out that the farmer's tax was

taxed in 1878, was untaxed in 1888; that

his sugar, his cotton, his blankets, his

woolens, I might have added his boots and

shoes, and nearly everything he has to

buy are very much cheaper than in 1878.

He can even get his daily bread cheaper.

Now this is the sort of point with the

great reduction in price in many of the

articles. Because there is no use telling

the farmer that the high tariff and the

"combines" are the cause of his trouble,

yearly tribute from him, if everything

he has to buy is so much cheaper than it

was under a revenue tariff.

TRADE AND NAVIGATION RETURNS.

The Trade and Navigation Returns for

the fiscal year ending June 30th, 1888,

have been issued. The well-informed cor-

respondent at Ottawa of the Toronto

World states that they show a most satis-

factory increase in the volume of trade of

the Dominion, the total amount of exports

being \$89,815,811 and imports \$112,922,

250, showing an increase over last year of

\$4,554,077 in the former and \$6,467,075

in the latter, a total increase of \$110,042,

162, the largest increase in any year since

1883.

The aggregate trade of the Dominion by

countries on the basis of goods entered for

consumption and exported was:

Great Britain.....\$ 89,815,811

United States.....82,767,265

France.....2,435,051

Germany.....3,072,988

China and Japan.....2,819,584

Other countries.....2,841,913

Total.....\$105,158,339

Abstract of the most important increases

are: Great Britain \$7,390,101; United States

\$1,340,457; Germany \$164,164 (an increase

of 50 per cent.); Belgium \$410,108 (an

increase of nearly 80 per cent.); South Amer-

ica \$134,097 (an increase of nearly 25 per

cent.); China and Japan \$352,981 (an in-

crease of 13 per cent.); other countries

\$478,890 (an increase of 20 per cent.). The

total decrease of any account are: France

\$104,680; Portugal \$97,580 (per cent.);

West Indies \$436,943 (about 9 per cent.).

The value of goods entered for consump-

tion and duty collected by countries was:

Countries.....Consumption.....Duty.....

Great Britain.....\$1,966,283.....\$18,290.....20

United States.....3,510,238.....\$31,290.....20

Other Countries.....2,841,913.....\$24,000.....20

Total.....\$105,629.....\$922,697.....706

The average percentage of duty on the

total value of goods entered for consump-

tion dutiable and free was 21.64, which is

1.74 per cent. more than last year, and the

highest average since 1862. The amount

of duty per head of population, taking the

population at 4,856,226, was \$4.65, which is

14 cents more than last year, and the high-

est ever reached with the exception of 1881

and 1882.

EDITORIAL BRIEVITIES.

There will be a lively contest amongst

the Ontario members of the Legislature for

the Ministry of Agriculture. Messrs.

Wells, Toronto; Dryden, Ottawa; Ayrer,

Weston; Drury, Hamilton; and

Norfolk and Gibson, of Hamilton, are

amongst the aspirants. Wells won't get it,

because he sits in a seat stolen by act of

the Legislature, to which he could not, "by

a large majority," be elected. Mr. C. G.

Gibson is the ablest of the gentlemen nam-

ed above.

The great majority of the Grit papers re-

fuse to accept the Grit's free trade plat-

form, and more particularly as it is coupled

with "unrestricted reciprocity" restrictions

of trade to dealing with the United States.

The Doseon and his advisers are having

a hard time—and, truth to tell, they de-

serve it.

Now, with regard to my alleged mis-

representation of the Mail's position, I beg

While correspondence will be accepted again

for the expression of their views on topics

of public interest, it must be in all cases

that the views expressed are simply those

of the writer, and not of the paper.

BEILLEVILLE, JAN. 26, 1888.

To the Editor of the Intelligence.

Sir,—As one of the "no account men,"

who signed the petition to the Council for

the reduction of liquor licenses in the city,

I hereby protest against the action of

the Council in reducing the license with

the same. On that petition were the

names of many of the best citizens of

the city (except perhaps one

and the remainder were certainly the peers

of the Council in their own right. I

am, J. W. Johnson, in both mental and

physical vigor. For the sake of the

signers and for the sake of the law, I

presented it, a little more considerable

array would not have been out of place

even in a Council Chamber. Of Mr. C.

Johnson I have not much to say. An

alderman who is being an ass and a

number of voters would have been out of

place on Front Street, and the reduction

of the license is a specimen of the

profession that we seldom find. He has
